

CGD AUTHORISED AREAS : DISTRICT WISE COVID 19 TRACKING

(Update Based on Notifications as of May 02, 2020)

As the COVID-19 lockdown restrictions are removed in a phased manner and economic activities are allowed to commence based on the weekly classification of the districts as either “red”, “orange” or “green” by the Government of India, it is critical for the stakeholders in the city gas distribution sector to be aware of the classification of the individual districts that comprise each authorised area and changes to the classification that occur as per GOI notifications.

Our Firm is keeping track of the classification of each district comprising all the authorised areas authorised to various CGD entities and has developed a table providing the status as of 2.05.2020 (which will be valid till the next classification released by Government of India) and updated regularly thereafter.

<u>S. No.</u>	<u>Entity</u>	<u>Authorised Area & Constituent Districts</u> <u>(Classification as of 01.05.2020)</u>	<u>Movement in</u> <u>Status</u> <u>(Since 15.04.2020)</u>

NOTES:

- On 01.05.2020, the Ministry of Home Affairs, Government of India (“MHA” or “GOI”) extended the national lockdown for two weeks commencing from May 4, 2020 (i.e. till May 18, 2020) and also issued new guidelines on measures to be taken for containment of Covid-19.¹
- The order stipulates that The Ministry of Health and Family Welfare, Government of India (“MHFW”) shall share and update the district classification *on a weekly basis* or earlier as required. States and Union Territories may identify additional areas for red/orange zones. However, States/Union Territories *cannot lower the classification* of any district (from red zone or orange zone) that is included in the list notified by the MHFW.² On 30.04.2020, MHFW³ released an updated classification of districts based on incidence of cases, doubling rate, extent of testing and surveillance feedback to classify the districts. This classification is applicable for the week after May 3rd, 2020.⁴ The districts are classified into “Red Zone”, “Orange Zone” and “Green Zone”. *A district that is a red or orange district as per May 1, 2020 classification, can become a green district if it does not report any COVID-19 case for a period of 21 consecutive days. At the same time a green zone can become orange or red if COVID-19 infections are reported in the same.*
- The limitations on the activities during the National Lockdown till May 18, 2020 and the limitations in Red Zone, Orange Zone are presently provided in the MHA notification of 01.05.2020. *It is for the State Governments to operationalise the permitted activities under the MHA notifications within the State. The State notifications are important for determining the extent of work permitted within the red and orange zones. Thus, the notifications of each State Government and each District Administration will provide the final applicable framework.*

⁴ Ministry of Health and Family Welfare updated classification dated 30.04.2020 available at the official Twitter handle of Asian News International - <https://twitter.com/ANI/status/1256072251134414851>

(Update Based on Notifications as of May 02, 2020)

- The classification of districts comprising the authorised areas will therefore be dynamic on a weekly basis based on MHFW, GOI classification and State Government notification of a green or orange zone becoming a red zone.
